GANS: I'm sorry. So you're saying that in 18 the rebuttal portion that we cannot read in that he's not a 18 19 dock builder, he doesn't know what he's looking at? 19 of all, you want this read now, under -- to make what JUDGE BLOXOM: That's correct. 17	MR. BRIGHT: No, Your Honor.	17	grounds for my motion are as follows: First of all, I renew
18	JUDGE BLOXOM: The plaintiff rests, then?	18	the basis that I raised at the close of the defendants' case
19	MR. BRIGHT: Yes, Your Honor.	19	on the basis of the ruling that was I believe already made in
20	JUDGE BLOXOM: Rebuttal?	20	the Court of Appeals decision. That's ground number one.
21	MR. BUSHEL: Nothing other than what was discussed	121	Ground number two is, again, there is inadequate
22	at the bench, Your Honor.	22	evidence to put this question of notice to the jury. All that
23	JUDGE BLOXOM: Rebuttal?	23	there is in the record on their side is a reference in minutes
24	MR. GANS: Nothing further for Topper, Your Honor	. 24	from June 1 of 2003 to a couple of broken brackets. Ray
25	JUDGE BLOXOM: Sir.	25	Phillips who first testified vaguely about some tires and some

1	brackets at unspecified times on cross-examination admitted	1	MR. GANS: I would just say, Your Honor, that the
2	that basically the problems manifested themselves after or	2	fact that one individual or another may not recall or may not
3	during Hurricane Isabel. All of the other witnesses who have	3	have recognized a certain fact does nothing to undermine the
4	testified have testified to that effect.	4	testimony of other witnesses that they did recall or did
5	Jim Short has fairly, emphatically and repeatedly	5	notice certain facts, to wit, the damage from the brackets
6	through his deposition transcript testified to that effect,	6	from the floats breaking free prior to Isabel that was
7	and we don't believe that there is that they've generated	7	testified to by Mr. Phillips and others. And every witness
8	an issue to be put to the jury on that question.	8	who can recall said that the character of the damage that they
9	JUDGE BLOXOM: Ma'am.	9	identified after Isabel was the same as they identified prior
10	MS. HERBER: We oppose that motion for the ground	ls 10	to Isabel with the exception of the fact that it was more
11	stated yesterday. But also Mr. Phillips' testimony was clear.	11	widespread because the marina had been hit by a hurricane.
12	He was there from day one. He saw what was going on. The	12	Mr. Sorrentino said that the damage was as you
13	fact that Mr. Phillips was there from day one was repeated by	13	would expect from a hurricane.
14	MV's witnesses and the plaintiff's witnesses.	14	So the damage before and after the hurricane the
15	The minutes clearly show what the plaintiff's	15	evidence shows is the same with the one factor that you have
16	witnesses could not testify to which is what was going on in	16	to adjust slightly for the fact that there was damage from a
17	the board of directors in June of 2003. They were aware that	17	hurricane hitting the marina. There really is no issue of, do
18	broken brackets were being noticed. They were aware that	18	we have to imply knowledge or do we have to suppose what
19	there were issues, C dock needed repairs, et cetera.	19	knowledge the plaintiff had.
20	Also plaintiff's witnesses support our position	20	The plaintiff's witnesses and the people that work
21	that there were brackets breaking before, brackets breaking	21	for the plaintiffs have testified that they knew about all the
22	after Isabel. Floats coming loose before, floats coming loose	22	damage that that put the plaintiffs on notice of the
23	after Isabel. And so we believe that there's well enough	23	problem that plaintiffs admit they put them on notice of
24	evidence to submit this question to the jury.	24	the problem. For that reason I think actually a directed

7	we prepared these right out of the cases cited. And I think	7	And so finally, Your Honor, on page 23, again, in
8	that the problem with just using the pattern instruction, it's	8	the Lumsden case in the Court of Appeals, I cited this

1 witness. Deposition testimony is entitled to the same 2 consideration and is to be judged insofar as possible in the 3 same way as if the witness had been present in court to 4 testify. 5 In this case it will be your duty to return your 6 verdict in the form of a written answer to the written 7 question which is submitted to you by the Court. Your answer 8 will constitute your verdict. Your answer is to be written in 9 the space provided after the question. Before making the 10 answer, all of you must agree upon it. It is your duty to 11 answer this question in accordance with the evidence 12 in the case. You're instructed that a party who asserts a claim 13 14 or affirmative defense has the burden of proving it by what we 15 call the preponderance of the evidence. The defendants have 16 the burden of proof on the question which you must decide. In 17 order to prove something by a preponderance of the evidence, 18 the party must prove that it is more likely so than not so. 19 In other words, a preponderance of the evidence means such 20 evidence which, when considered and compared with the evidence 21 as opposed to it, has more convincing force and produces in 22 your minds a belief that it is more likely true than not true. 23 In determining whether a party has met the burden of proof, 24 you should consider the quality of all of the evidence 25 regardless of who called the witness or who introduced the

1 exhibit and regardless of the number of witnesses which one 2 party or the other may have produced. If you believe that the 3 evidence is evenly balanced on the issue, then your finding on 4 that issue must be against the party who has the burden of 5 proving it.

You're instructed that a cause of action accrues when the plaintiff knows or by reasonably diligent investigation should have known of the injury or damage. You're further instructed that a condominium 10 council of unit owners like the plaintiffs is responsible for maintenance, repair and replacement of common elements which 12 includes all of the condominium except for the units. 13 You must consider and decide this case fairly and 14 impartially. All persons, including corporations, stand equal 15 before the law and are entitled to the same treatment under 16 the law. You should not be prejudiced or for -- prejudiced 17 for or against a person because of that person's race, color, 18 religion, political or social views, wealth or poverty. You 19 should not even consider such matters. The same is true for 20 prejudice for or against or sympathy for any party. 21 In order to reach a verdict in this case each of 22 you must agree upon it. In other words, it must be unanimous. 23 You're going to now hear the arguments of the lawyers who have 24 the right to discuss the evidence and the law with you. Your

19	dock, divvied up the responsibility of inspecting each of the	19	The most common answer you heard from the
20	docks. In fact, as Judge Bloxom just instructed you, the	20	witnesses put on by the plaintiffs was, I don't really
21	condo association is responsible for maintenance and repair of	21	remember. I'm not really sure. It's not surprising. It's
22	all common areas. The evidence established that the marina is	22	been seven years since the events in question, and it wasn't
23	a common element. So the management the condo association	23	their job to keep track of these things. There's only one
24	quickly took over management, quickly learned of the problems	24	person that you heard from whose job it was to keep track of
25	with the dock. And for this reason we're asking you to answer	25	these things, and that's Mr. Phillips. It's how he earned his
		1	

# 

1	living. So common sense tells you, and the good news is
2	you're perfectly appropriate to apply your common sense to
3	this, that if it's his job to do it, he's going to be the one
4	that's paying the most attention. Now, others of them did
5	notice things, but it comes as no surprise that Mr. Phillips
6	noticed and took record of more detailed information about the
7	condition of the dock than did the nonemployees.
8	You heard from Mr. Clarke, who is in the back of
9	the courtroom today, he said, you know, I remembered some
10	stuff, but my main focus was the ice in the cooler, was my
11	boat floating. Makes perfect sense. The man's not there to
12	work at the marina. He's there to enjoy the fruits of the
13	marina, so he's not paying attention. Again, Mr. Phillips'
14	job was to do that. And as Ms. Herber said, what Mr. Phillips
15	said is, we had problems before Isabel, we had problems after
16	Isabel. When there was a blow or a thunderstorm, there were
17	broken brackets, there were floats that broke free. You can
18	use your common sense and say, the marina was in use from
19	full use from September of 1999 until August 30 <sup>th</sup> ,
20	August 29 <sup>th</sup> of 2003. Does it make sense that throughout
21	that entire time despite what Mr. Phillips' testimony is, that
22	there wouldn't have been this same manifestation in damage in
23	the storms happening during that period of time? It just
24	doesn't make sense. So it's contrary to common sense, and
25	it's backed up by what Mr. Phillips has to say.

1	I don't really think that as the evidence comes in
2	it showed this isn't a question of, oh, I'm not sure we have
3	to imply. They said from the witness stand, we knew about
4	damage that happened before Isabel. And that's the issue.
5	That's the question that you have to ask yourself. And the
6	evidence was frankly, it was uncontradicted. The fact that
7	one person doesn't remember an event happening and another
8	person does doesn't mean that the event didn't happen. Even
9	Mr. Short, who you heard some deposition from, just the fact
10	that he doesn't remember something occurring doesn't mean that
11	Mr. Phillips' recollection is any less credible.
12	Mr. Phillips was up there, probably sat up there
13	for the longest time, he was very clear. There were records
14	to back up his recollection. And if you apply your common
15	sense, what he said makes sense. The damage showed itself
16	whenever there was a storm. And there were plenty of
17	opportunities for that to happen prior to the 29 <sup>th</sup> of
18	August 2003. I think that's what they knew. The evidence
19	showed that's what they knew, and the evidence showed that's
20	when they knew it. And the answer is, with respect to
21	Mr. Bright and his clients, that's the answer. They knew in
22	that time frame. Thank you again for your time.
23	MR. BRIGHT: Good morning again, folks. Thank
24	you. The other counsel thank you, I will thank you as well on
25	behalf of my client, Pines Point Marina, for your patience,

)	

1	your attentiveness, being focused throughout the trial. We	1	wa
2	all appreciate that very much.	2	the
3	What does the evidence demonstrate in this case?	3	the
4	What was the evidence in this case? First of all, let's start	4	wa
5	short of where Mr. Gans left off with Mr. Phillips.	5	an
6	Mr. Phillips was Jim Short's guy on the scene at that marina.	6	Sh
7	Jim Short being the developer, the principal of MV of Ocean	7	me
8	Pines. Phillips hatched the arrangement that he had at that	8	sel
9	marina with Jim Short way back at the beginning of time for	9	wi
10	this marina in 1999. Whatever Ray Phillips may have known	10	ad
11	from 1999 until 2003 in large part doesn't matter because at	11	wł
12	that point in time, he is the dockmaster essentially for the	12	
13	developer. He's the dockmaster for Jim Short. He's not the	13	pr
14	dockmaster for my client, the Pines Point Condominium	14	Isa
15	Association, because it effectively didn't exist as a separate	15	Μ
16	self-governed entity as we said until the turnover occurred in	16	sh
17	April of 2003. So whatever Mr. Phillips testified that he	17	wa
18	knew back in 1999 or 2000 or 2001, all the way up through	18	me
19	April of 2003, is immaterial in this case unless he testified	19	be
20	that all of that knowledge that he had, and it was his	20	clo
21	testimony, frankly, on those issues it was vague, it was not	21	int
22	directed at any specific point in time or any specific problem	22	ap
23	or issue or any specific instance, but to the extent that he	23	Se
24	knew something, and that didn't come across from the witness	24	ye
25	stand, prior to April of 2003 or prior to the year 2003, there	25	

	was no testimony that wherein he said, everything I knew, once
	the turnover occurred, I went to the board and reported it to
	the board. He testified that during that period of time he
	was reporting to Jim Short. Jim Short was, for all intents
	and purposes, his boss. Jim Short, Ray Phillips and Jim
	Short's partner were the three, quote, unquote, "board
	members" until the condominium association became a
	self-governed entity. So and I he was their only live
	witness was Mr. Phillips. And I'll get in a minute to what he
)	admitted on cross-examination whereas their focus has been
	what he testified to on direct.
	But what did the evidence show with respect to
	prior to Isabel and after Isabel? First of all, prior to
	Isabel first of all, I want to make a point about, Ms.
	McLaughlin was asked questions about what was said to her when
,	she was there in 2006 for an inspection of the marina. And it
,	was through that questioning, it was suggested that the
;	members of the board that were with him said, oh, this has
)	been going on for three years. Well, no. If you conduct a
)	closer examination of the document that the defendants put
	into evidence, Defendants' No. 8, the reference is to
	approximately three years. Remember this is in May of 2006.
	September of 2003 when Isabel occurred is approximately three
	years before that.
	And then she was unclear as to exactly what had

## 71

been said. She went kind of back and forth a bit. Her 1 2 testimony -- she repeatedly said throughout her testimony is, 3 this was a long time ago. I don't really remember. I mean, 4 that was from her mouth. 5 Now, the other really, really big piece of 6 evidence in the mind of the Defendants that they have really 7 hung their hat on to a large degree are the minutes from the 8 meetings. And you will have an opportunity to read these 9 minutes from the meetings. But there are two sets of them; a June 1<sup>st</sup>, 2003, set of minutes for a June 1st, 2003, board 10 11 meeting wherein there's a reference to, and I quote, "there 12 are a couple" -- well, it's talking about broken brackets. 13 And the reference is "there are a couple that are broken and 14 need repair." A couple, that's two. 15 In a 200 slip marina, and you can get some sense 16 of the scale of this marina by looking at these photographs 17 and how far out these docks extended. A, B, C and D dock, 18 each of them having -- I don't know the number of slips -- but 19 a few dozen -- a couple of dozen slips on each dock. This is 20 the schematic drawing of A, B, C and D dock. This is a big 21 marina, I mean, as marinas go. It is a large-scale floating 22 dock. How many broken brackets as of June of 2003? Two. A 23 couple. You get to the June 22<sup>nd</sup> minutes, and again, 24 25 these are documents that are put in by the defendants as their

proof of notice on the part of the condominium association
 which, by the way, at this point in time in June of 2003 has
 just been constituted, the new board and the self-governed
 association, as a group of volunteer boat owners that are
 sitting on this board. That's who you're dealing with as far
 as board members on the condominium board.

7 In the second set of minutes, which is from a 8 June 22<sup>nd</sup>, 2003, meeting, there's no reference to broken 9 brackets in these minutes. There's no reference anywhere. 10 There's no reference in either of these sets of minutes to 11 floating tires. Maybe Ray Phillips knew about a couple of 12 floating tires, but he didn't say he it at either one of those 13 meetings. He said he attended all the meetings. He reported 14 at all the meetings as to whether he had any concerns or any 15 problems to report. No reference to that in these minutes. 16 No mention in those minutes in June of 2003 of any floating 17 tires.

18 You have the testimony of the original -- or the 19 first president of the board, the second president of the 20 board, and the third and fourth presidents of the board were 21 members -- a third president and a fourth member of the board, 22 all testified on behalf of the association, they were called 23 by us in our case, that the earliest point at which there was 24 any concern, any real presentation or manifestation of 25 problems was Hurricane Isabel. Even Mr. Phillips testified

	10

6	So what about after Isabel? First of all, you	6	had occurred prior to that, he can handle himself as the

9	characterization of Isabel as a nonevent. I mean, you can	9	The more the evidence is analyzed, the more it's
10	take that for I suppose for what it's worth. She wasn't	10	clear that Isabel is a bright line point in time where much
11	here when Isabel hit. She wasn't at the marina when Isabel	11	more presented itself and manifested itself. And it went from
12	hit. She was at the marina three years later when she	12	being a maintenance issue in this marina to being something
13	conducted her inspection. So what she thinks about whether or	13	much more significant than that, where the lightbulb goes on
14	not Isabel was a nonevent at Pines Point Marina isn't	14	and it's something more meaningful than that.
15	credible. It's not something that should be valued as a piece	15	The last thing that I want to really in terms
16	of evidence.	16	of the evidence that I want to really emphasize is and
17	So what happened when Hurricane Isabel rolled in?	17	first of all, you were instructed by His Honor that deposition
18	Well, you don't have two broken brackets, you've got 42.	18	testimony read into the record as opposed to testimony live
19	That's documented. That's from Ray Phillips' mouth.	19	from a witness is to be essentially afforded the same weight
20	Forty-two broken brackets. All of a sudden you've got a	20	as testimony live from a witness and is to be considered by
21	widespread problem throughout this large marina. You have	21	the jury in the same manner. And what I want to close by
22	tires racks not tires floating up, but racks of tires	22	making reference to is a reiteration of what Jim Short, again,
23	breaking loose. You have such extensive problems presenting	23	Jim Short being the principal of MV of Ocean Pines which is
24	themselves at that point in time, when Isabel hit, that this	24	the developer of this marina. Jim Short in control of this
25	is the first time since the Pines Point Condominium	25	marina until April of 2003 when it was turned over to the

1 condominium association. Jim Short continuing to have 1 2 involvement in the marina after that. And he says, and I'm 2 3 3 quoting now, in talking about inspections at the marina, "Not 4 until -- as far as I know, not until the problems started 4 5 5 showing up." This is directly from the horse's mouth from one 6 of the defendants' key people. 6 7 7 "When was that?" 8 8 "I think somewhere in the fall of 2003." That's 9 9 not the spring, that's not 2002, that's not 2001. He says 10 10 problems started showing up in the fall of 2003. 11 Then he gets more specific. When he was asked a 11 12 12 question about whether the dockmaster ever undertook any 13 13 repairs to the marina before transition to the board in March 14 14 of 2003, he goes on to talk about the fact that they weren't 15 extensive, but, yeah, there were repairs, rub rail being 15 16 replaced, cleats being replaced. You know, this is minor 16 maintenance stuff in a marina. 17 17 18 18 And then he goes on to characterize that as normal 19 wear and tear. I call it maintenance, he calls it normal wear 19 20 and tear. That's what was going on prior to Hurricane Isabel, 20 21 normal wear and tear in this marina. That's all that was 21 22 22 manifest, that's all that was presented to this volunteer, regular Joe board of directors that was in charge of this 23 23 24 marina. 24 25 25 And then he goes on to talk about he's -- in

another part of his testimony he's describing some of the problems in particular to D dock which is the outermost dock on this marina. And the question is asked of him, "Now, had you seen any of these problems when you had been down to the dock before the Isabel event?" And his answer is, "Some tires were loose. They had -- they'd broken loose during other wind storms, but nothing -- not enough to alert anybody -- not enough to alert anybody to suspect a major failure, you know." And then he goes on. The question is asked, "So when did the major failure occur?" And he says -- first he says, "Yeah. I don't know." And then he says, "I would say it was recognized after Isabel." This is the defendant itself through -- or in the person of Jim Short saying, this is all ordinary wear and tear. This is all maintenance until you have that hurricane hit, and then we've got a much bigger problem. So that is the earliest point in time. The question that you're going to be asked to answer on the verdict form is whether the plaintiffs were on notice before August 30 of 2003 of circumstances that would have caused a reasonable person in their position to undertake

74

an investigation which if pursued with reasonable diligence
 would have revealed the conditions being complained of in this
 case.

because it was in September of 2003. It wasn't in August, it

19	Now, when you go back to the jury room, I ask you	19	it would be important for Ms. McLaughlin to talk to
20	to take a good look at the minutes. Like I said, you'll have	20	Mr. Phillips, yet he never asked he never told
21	the opportunity to look at it. Mr. Bright referenced that	21	Ms. McLaughlin that she should speak with him.
22	there's mention of two brackets being broken. I submit to you	22	I just want to go back to what I said before, and
23	that there's no reference to two brackets being broken.	23	that is that nothing you've heard in Mr. Bright's closing
24	Several brackets being broken. And it's a clear statement in	24	argument really will change it. That the damage that was

JUDGE BLOXOM: Well, gentlemen, I freely concede	2 3 4 5 6 7 8 9 10 11 12 13 14	enough time, gentlemen, and I don't want to put anybody under if you have vacation plans or anything like that. This matter has been going on for four years now, so it's not that I'm not anxious to move it along, but having said in light of the fact that it's been going on for four years, and 30 or 45 days isn't going to make much difference.
