Application for the Installation of a Dock Wheel

To PPMAC Manager:

Attached is a check in the amount \$20. This is the standard installation fee for the dock wheel. I, the undersigned, will provide the dock wheel assembly along with the required installation mounting hardware.

This application is being submitted in accordance with the Pines Point Marina a Condominium Council of Unit Owners, Inc. (herein referred to as PPMAC) By-Laws Article VIII, Section 3, (b) which states "No dock boxes or other physical structures shall be constructed or added, except for work to be performed by the Association."

I understand for this application to be approved, the dock wheel provided for installation must meet the below listed criteria:

1. The dock wheel must be white in color and at least similar in look and appearance to the existing dock wheels.
2. For similarity purposes, you may want to consider reviewing the Taylor Made® Dock Pro™ Corner Mount Inflatable Dock Wheels and other similar products offered by most local boating suppliers.

After approval and installation of the dock wheel, the slip owner will hold the PPMAC harmless for any damage(s) caused by the dock wheel as a result of being hit by a boat or any other object, breaking up or blowing away due to wind or storm damages and/or any other act of nature.

By signing and submitting this application, I agree to, and will abide by, all of the above listed terms and conditions.
