

## Pines Point Marina

Accessing the marina cameras from your mobile phone

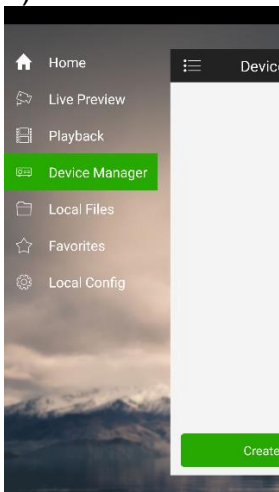

1) download and install the mobile APP (Android : MMS HDCVI, IOS: iMMS ), you can search and download it from Google Play and Apple APPStore. The following is for the Android version of the APP but the Apple version should be similar:

2) After it is installed click OPEN

3) Click on Camera:

4) Click the Three Bars on upper left to get this screen:

5) Select Device Manager then click the + in the upper right corner to Add Device:

6) Select IP/Domain and enter the info as shown below:

Register Mode:	IP/Domain
Name:	Marina
Address:	74.84.69.82
Port:	37777
Username:	marina
Password:	.....
Live Preview:	Main >
Playback:	Main >

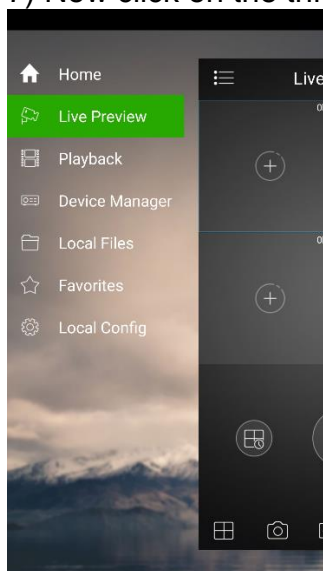

Start Live Preview

Name can be whatever you want  
 Address is 74.84.69.82  
 Port is 37777  
 Username is marina  
 Password is ppmac - all lower case

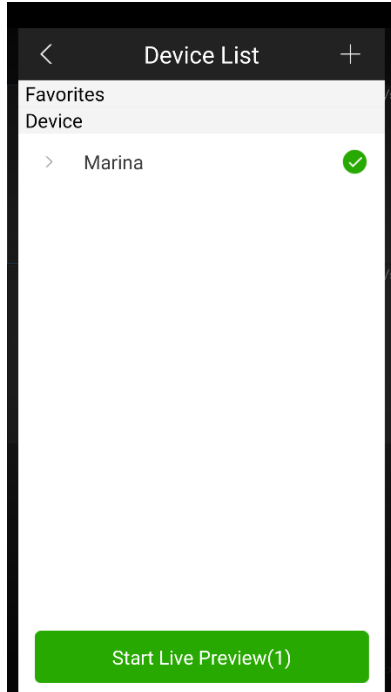

Make sure you change the Live Preview from Extra to Main!! Also change the Playback!

Click the Save button in the upper right to save this camera setting!

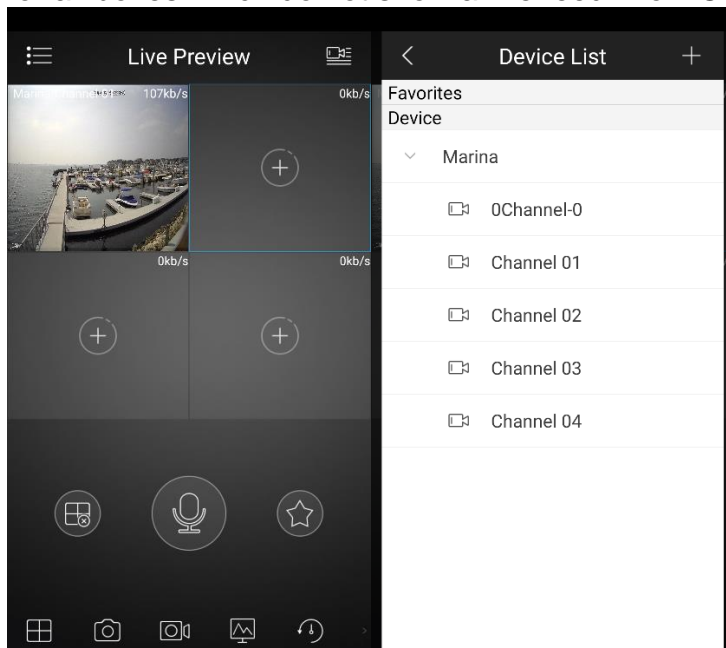

7) Now click on the three bars and select Live Preview

8) Click the camera in the upper right and make sure the radio button is selected for the camera:

9) Click Start Live Preview and you should see a screen with four cameras. If they are not all live click the + sign in the box and select Channel 01, 02, 03 and/or 04. Repeat for all boxes which do not show a live feed. Do NOT select 0Channel-0

10) You should now see all the cameras
